How To Be A Ventriloquist

During this intensive two hour lesson, one of our professional entertainers will teach you how to be a ventriloquist.

The price of the lesson includes the following items which are yours to keep and take away to enjoy and use at the end of the lesson:

- A wide mouthed puppet which is ideal to use for ventriloquism •
- A drawstring nylon puppet bag to transport the puppet and keep it clean •
- A comprehensive training manual on how to be a ventriloquist •
- Two 'Ventrilo' aids which will help you to practice •

The picture on the left shows a typical puppet and carry bag which we use for the ventriloquism lessons. The puppet supplied may vary from the one shown, as our supplier cannot always guarantee to get the same ones each time we order.

Our tuition can be given at our base in Marston Moretaine in Bedfordshire, at your home, your company, or at one of the centres which we regularly use for training courses.

We give individual one to one tuition but we also give group tuition for schools and industry.

This particular lesson is becoming very popular so book early to make sure that we are available.

Our intensive two hour lesson would make an ideal gift for somebody special. It would also be an interesting and unusual way for your staff, in a team building situation, or for a group of friends to let their hair down and have some fun, while also learning a new skill.

When a group of people take one of our lessons, it makes a great photo opportunity for a publicity picture. Just imagine a picture of twenty or more people all with a puppet on their arm in your local paper or your company publication.

All of our lessons are covered by £10,000,000 public liability insurance.
